SSC GD Constable 2022 question paper with answers

17 January 2023 · Shift 3

70 questions as the Staff Selection Commission (SSC) printed them · answers from the official key · marking: +2 for a right answer, –0.50 for a wrong one

The other 10 of the paper's 80 questions are not reproduced: they need a figure or are printed as an image, or ask about formatting the source does not keep.

Try every question first: the answer key and the explanations follow the questions. Official answer-key notice: https://web.archive.org/web/20230219070003/https://ssc.nic.in/SSCFileServer/PortalManagement/UploadedFiles/Write_up_Constable_GD_2022_18022023.pdf

Part-A-General Intelligence and Reasoning 16 questions

Q.2

Which of the following letter-clusters will replace the question mark (?) and complete the following letter-cluster series? FZ, GA, JZ, OA, ?

(A) VZ
(B) VY
(C) UA
(D) UZ

Q.3

Select the set in which the numbers are related in the same way as are the numbers of the following set. (NOTE : Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding /subtracting/multiplying etc. to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is NOT allowed) (40, 10, 150); (65, 35, 150)

(A) (75, 40, 225)
(B) (30, 12, 120)
(C) (55, 10, 225)
(D) (70, 30, 270)

Q.7

In a certain code language, ZERO is coded as 64, and FIVE is coded as 42. How will ELEVEN be coded in that language?

(A) 64
(B) 63
(C) 62
(D) 61

Q.8

If ‘P’ means ‘addition’, ‘Q’ means ‘subtraction’, ‘R’ means ‘multiplication’, and ‘S‘ means ‘division’. What will be the value of the following expression? 76 P 42 S 6 Q 22 P (8 R 15)

(A) 171
(B) 221
(C) 181
(D) 121

Q.9

Which of the following numbers will replace the question marks (?) in the given series? 11, 33, 66, 110, 165, ?, ?

(A) 231, 308
(B) 222, 236
(C) 226, 254
(D) 212, 234

Q.10

Select the option that is related to the fifth letter-cluster in the same way as the second letter-cluster is related to the first letter-cluster and the fourth letter-cluster is related to the third letter-cluster. BOTH: WJEQ :: FACE:SXVT :: KING: ?

(A) PRMT
(B) MKPI
(C) OQLS
(D) NPKR

Q.11

Which of the following numbers will replace the question mark(?) in the given series? 56000, 14000, 2800, ?, 140, 35, 7

(A) 400
(B) 560
(C) 700
(D) 350

Q.12

Three Statements are given followed by Three conclusions numbered I, II and III. Assuming the statements to be true, even if they seem to be at variance with commonly known facts, decide which of the conclusions logically follow(s) from the statements. Statements: All bottles are cups. All cups are plates. Some plates are tables. Conclusions: I Some cups are bottles. II Some plates are cups. III Some tables are plates.

(A) Both conclusions II and III follow.
(B) Both conclusions I and II follow.
(C) All conclusions follow.
(D) Both conclusions I and III follow.

Q.13

Which two signs should be interchanged to make the below equation mathematically correct? 42 + 14 ÷ 28 × 98 - 14 = 105

(A) ÷ and -
(B) - and +
(C) × and ÷
(D) + and ×

Q.14

Which option represents the correct order of the given words as they would appear in the English dictionary? 1 Straight 2 Strict 3 Stamp 4 Sticker 5 Streaming

(A) 3,5,4,1,2
(B) 4,5,2,3,1
(C) 3,4,1,5,2
(D) 4,3,1,5,2

Q.15

Eight colleagues A, B, C, D, E, F, G and H are sitting in a circle facing the centre, not necessarily in the same order. G sits third to the left of D. E is third to the left of G. H sits to the immediate right of D. B is second to the right of E. F is an immediate neighbour of E. F is third to the left of C. Who is sitting on the immediate left of D?

(A) C
(B) H
(C) E
(D) A

Q.16

Select the option that is related to the third word in the same way as the second word is related to the first word. (The words must be considered as meaningful English words and must not be related to each other based on the number of letters / number of consonants / vowels in the word) Rat : Rodent :: Crocodile : ?

(A) Mammal
(B) Herbivorous
(C) Reptile
(D) Water

Q.17
In a certain language, ADVICE is written as VDAECI and BELONG is written as LEBGNO. How will BETTER be written in the same language?

(A) RETTEB
(B) CFUUFS
(C) TEBRET
(D) YVGGVI

Q.18
G + H means 'G is the sister of H'; G × H means 'G is the father of H'; G ÷ H means 'G is the son of H'; G – H means ' G is the daughter of H'; If P – J + D ÷ S, then how is J related to S?

(A) Maternal aunt
(B) Brother
(C) Paternal aunt
(D) Daughter

Q.19
Six friends (Aman, Biplab, Chirantan, Divya, Elizabeth and Firoz) are sitting around a circular table facing the centre. Aman sits third to the left of Biplab. Chirantan is an immediate neighbour of Aman. Elizabeth sits second to the right of Divya. Chirantan is not an immediate neighbour of Divya. Who sit between Aman and Biplab from the left of Aman?

(A) Firoz and Elizabeth
(B) Divya and Chirantan
(C) Firoz and Divya
(D) Chirantan and Elizabeth

Q.20
Which of the following letter-clusters will replace the question mark (?) in the given series? GPQU, FQRT, ?, DSTR, CTUQ

(A) ERSS
(B) ERRS
(C) FQSS
(D) EQRS

Part-B-General Knowledge and General awareness 20 questions

Q.1
The famous Nauchandi Fair happens once a year in the state of _____.

(A) Tamil Nadu
(B) Madhya Pradesh
(C) Uttar Pradesh
(D) Kerala

Q.2
As per November 2022, who is the Chief Economic Advisor of India?

(A) Krishnamurthy Subramanian
(B) Balwant Rai Mehta
(C) V. Anantha Nageswaran
(D) Surender Singh

Q.3
Who was the Prime Minister during the Eighth Five Year Plan?

(A) P. V. Narsimha Rao
(B) Manmohan Singh
(C) Narendra Modi
(D) L K Advani

Q.4
Who sworn in as the 49th Chief Justice of India in August 2022?

(A) Nuthalapati Venkata Ramana
(B) Ranjan Gogoi
(C) Sharad Arvind Bobde
(D) Uday Umesh Lalit

Q.5
Jatin Ghoswami won numerous awards for his contribution in which dance form?

(A) Odissi
(B) Kuchipudi
(C) Bharatnatyam
(D) Sattriya

Q.6

Development of _____ was the motto of the first five year plan in India.

(A) rivers
(B) buildings
(C) agriculture
(D) architecture

Q.7

Which among the following metals has the highest electrical conductivity?

(A) Lithium
(B) Silver
(C) Platinum
(D) Gold

Q.8

Who among the following lit the Olympic cauldron in the Summer Olympics 2020?

(A) Vanderlei Cordeiro de Lima
(B) Jordan Duckitt
(C) Naomi Osaka
(D) Dinigeer Yilamujiang

Q.9

Swachh Bharat Mission was launched to fulfil the vision of a cleaner India by _____.

(A) October 2,2015
(B) October 2,2018
(C) October 2,2017
(D) October 2,2019

Q.10

What is the minimum age requirement to be elected as President of India?

(A) 35 years
(B) 34 years
(C) 25 years
(D) 30 years

Q.11

The football club Mohun Bagan was founded in which year?

(A) 1892
(B) 1889
(C) 1873
(D) 1878

Q.12

The fundamental duties in the Indian Constitution are taken from which country's Constitution?

(A) USA
(B) Canada
(C) USSR (now Russia)
(D) France

Q.13

Which of the following is an exclusive martial dance form of Manipur?

(A) Bihu
(B) Kummi
(C) Thang Ta
(D) Danda-Jatra

Q.14

Neonatal mortality rate refers to the number of deaths during the first _____ of life per 1000 live births in a given year or other period.

(A) 28 days
(B) 27 days
(C) 26 days
(D) 25 days

Q.15

Which of the following comes under Mollusca?

(A) Turtle
(B) Musca
(C) Sting ray
(D) Octopus

Q.16
Identify the only natural satellite of Earth.

(A) Callisto
(B) Lo
(C) Titan
(D) Moon

Q.17
_____ are things a firm owns.

(A) Debentures
(B) Assets
(C) Liabilities
(D) Loan

Q.18
General Dyer took command during the martial law in which year?

(A) 1945
(B) 1819
(C) 1919
(D) 1929

Q.19
What helps in expanding trade and commerce and brings in foreign exchange?

(A) import of machines
(B) export of manufactured goods
(C) import of manufactured goods
(D) import of raw materials

Q.20
Which of the following archaeological sites is NOT located in present day India?

(A) Mahagara
(B) Chirand
(C) Hallur
(D) Mehrgarh

Part-C-Elementary Mathematics 14 questions

Q.2
A can run 1 km in 4 min, and B can cover the same distance in 4 min 10 sec. By what distance can A beat B in a 1 km race?

(A) 45 m
(B) 40 m
(C) 35 m
(D) 30 m

Q.3
A sum of money doubles itself at compound interest in 10 years. In how many years will it be four times at the same rate of interest?

(A) 10
(B) 20
(C) 15
(D) 5

Q.4
The marked price of a chair was Rs.5,000. The shopkeeper was offering a discount of 20%, but on further bargaining agreed to offer a successive discount and finally sold the chair for Rs.3,600. What was the second discount offered by the shopkeeper?

(A) 12%
(B) 10%
(C) 11%
(D) 9%

Q.5
If 90 is divided into two parts in the ratio of 2:3, then what are the values of two parts?

(A) 50 and 40
(B) 36 and 54
(C) 42 and 48
(D) 40 and 50

Q.6

The weight of five boys is recorded as 22.450 kg, 24.150 kg, 24.720 kg, 28.530 kg and 25.150 kg. What is the average weight of all the five boys?

(A) 29 kg
(B) 27 kg
(C) 25 kg
(D) 26 kg

Q.7

A bus covered a distance of 72 km in 60 min. What is the speed of the bus in km/h?

(A) 91
(B) 56
(C) 84
(D) 72

Q.8

A hemisphere of lead of radius 5 cm is cast into a right circular cone of height 75 cm. If the volume of cone and hemisphere are equal, then what will be the radius of the base of the cone?

(A) 1.8 cm
(B) 1.4 cm
(C) 1.5 cm
(D) 1.2 cm

Q.11

A, B, and C start running simultaneously, starting from a point, around a circular track of length 900m, with respective speeds of 3m/s, 5m/s, and 6m/s. A and B run in the same direction while C runs in the opposite direction of the other two. After how much time will they meet for the first time?

(A) 12 minutes
(B) 13 minutes
(C) 14 minutes
(D) 15 minutes

Q.14

The difference between two numbers is 1086. When we divide the larger number by the smaller we get six as quotient and six as remainder. Find the larger number.

(A) 1402
(B) 1302
(C) 1502
(D) 1202

Q.15

After getting two successive discounts Rupa got a dress at Rs. 1619.20, whose marked price is Rs. 2000. If the second discount is 8 percent, then the first discount is:

(A) 10 percent
(B) 6 percent
(C) 12 percent
(D) 15 percent

Q.17

A and B together can do a piece of work in 20 days, and B and C together can do the same work in 100 days. If B alone can do the same work in 140 days, then in how many days will A and C together can complete the same work?

(A) 125/8 days
(B) 175/8 days
(C) 111/3 days
(D) 145/6 days

Q.18

A can do a piece of work in 4 days, while B can do it in 8 days. If they work on alternate days beginning with A, then in how many days will the work be completed?

(A) 3
(B) 4
(C) 3.5
(D) 5

Q.19

If a diamond ring is sold for ₹5,94,320, then a woman will get a loss of 5%. At what price should she sell it so that her profit becomes 25%?

(A) ₹7,32,140
(B) ₹7,42,800
(C) ₹7,52,010
(D) ₹7,82,000

Q.20

In a panchayat election, there were two candidates A and B. Candidate A got 42% of the votes and lost to B by 8000 votes. What is the total number of votes?

(A) 30000
(B) 3000
(C) 5000
(D) 50000

Part-D-English 20 questions

Q.1

Select the correct word for the blanks in the given sentence. My father loves to read a _____ and wants to _____ flight tickets for Delhi.

(A) reserve
(B) notepad
(C) book
(D) purchase

Q.2

Select the most appropriate ANTONYM of the given word. Doleful

(A) Joyous
(B) Worthless
(C) Horrid
(D) Dismal

Q.3

Select the correct spelling of the underlined word in the following sentence. In “edition” to snacks, please bring cold drinks.

(A) adition
(B) addition
(C) eddtion
(D) audition

Q.4

Select the most appropriate synonym of the given word. Despise

(A) Treasure
(B) Desire
(C) Dislike
(D) Like

Q.5

Select the most appropriate option that can substitute the underlined segment in the given sentence. “Does it” difficult to drive a lorry through a crowded narrow lane?

(A) Aren’t it
(B) Do it
(C) Isn’t it
(D) Would it

Q.6

Select the most appropriate meaning of the given idiom. In the blink of an eye

(A) Happen fast and instantaneously
(B) To make progress
(C) To flourish
(D) To allow someone to move fast

Q.7

Select the most appropriate option to fill in the blank. The teacher _____ another picture in the slide to explain his point of view.

(A) excluded
(B) extracted
(C) inserted
(D) obtained

Q.8

Select the most appropriate meaning of the given idiom. An arm and a leg

(A) Too much bothering
(B) Very expensive
(C) Too much criticism
(D) Willing to work

Q.9

Select the INCORRECTLY spelt word.

(A) Seceade
(B) Seismic
(C) Relevance
(D) Titillate

Q.10

Select the most appropriate option to fill in the blank. One day, an old man was walking through the forest _____suddenly he heard someone crying for help.

(A) which
(B) when
(C) while
(D) than

Q.11

Select the most appropriate synonym of the given word. Annoy

(A) Irritate
(B) Testify
(C) Suppress
(D) Delight

Q.12

Parts of the following sentence have been underlined and given as options. Select the option that contains an error. Tomorrow in the exam hall, I “am” “busy” “writing” “answers”.

(A) writing
(B) am
(C) busy
(D) answers

Q.13

Select the correct option to substitute the underlined segment in the given sentence. Ever since young, we were taught that we “can” obey our elders.

(A) should
(B) cannot
(C) May
(D) need not

Q.14

Select the most appropriate homonym to fill in the blank. Due to the attack his vital organs _____ functioning.

(A) seized
(B) sized
(C) ceased
(D) seas

Q.15

Select the most appropriate ANTONYM of the given word. Cynical

(A) Negligent
(B) Silent
(C) Optimistic
(D) Usurper

Q.16

In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank. Mirrors (1) _____ used since ages. It is said that Archimedes used huge mirrors to focus the heat of the sun's rays on enemy ships to burn them. The same (2) _____ is used in solar cookers, where mirrors are used to reflect and focus the sun's rays onto cooking containers. Astronomers use huge concave mirrors to focus starlight. The mirrors used in telescopes are polished by giving a thin coat of silver or aluminium to the glass. With the telescopes, astronomers can see the heavenly bodies, but even without the telescopes one can see the moon. A full moon shining (3) _____ is a beautiful sight. But it is also a puzzle, because if the sun and the moon both give the same light, then why is the moonlight more pleasant? The reason is that the moon reflects very (4) _____ sunlight, in fact, only seven per cent of the light it receives. The earth reflects about half of the radiation that it receives from the sun. Imagine how bright the earth must be looking from the moon! One can even read a book on the moon in the earthlight. However, you do not have to travel all the way to the moon to realise how strong the earth's light is. Observe the crescent moon soon after the new moon. The bright crescent is illuminated by the sun. The rest of the moon is illuminated by earthlight. In other words, the light reflected by the earth is falling on the moon. This is being reflected back to us and is strong enough to show the moon (5) _____. As the crescent increases in size, this effect disappears.

Select the most appropriate option to fill in blank number 1.

(A) has been
(B) is being
(C) have been
(D) are

Q.17

In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank. Mirrors (1) _____ used since ages. It is said that Archimedes used huge mirrors to focus the heat of the sun's rays on enemy ships to burn them. The same (2) _____ is used in solar cookers, where mirrors are used to reflect and focus the sun's rays onto cooking containers. Astronomers use huge concave mirrors to focus starlight. The mirrors used in telescopes are polished by giving a thin coat of silver or aluminium to the glass. With the telescopes, astronomers can see the heavenly bodies, but even without the telescopes one can see the moon. A full moon shining (3) _____ is a beautiful sight. But it is also a puzzle, because if the sun and the moon both give the same light, then why is the moonlight more pleasant? The reason is that the moon reflects very (4) _____ sunlight, in fact, only seven per cent of the light it receives. The earth reflects about half of the radiation that it receives from the sun. Imagine how bright the earth must be looking from the moon! One can even read a book on the moon in the earthlight. However, you do not have to travel all the way to the moon to realise how strong the earth's light is. Observe the crescent moon soon after the new moon. The bright crescent is illuminated by the sun. The rest of the moon is illuminated by earthlight. In other words, the light reflected by the earth is falling on the moon. This is being reflected back to us and is strong enough to show the moon (5) _____. As the crescent increases in size, this effect disappears.

Select the most appropriate option to fill in blank number 2.

(A) verity
(B) principle
(C) supposition
(D) moral

Q.18

In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank. Mirrors (1) _____ used since ages. It is said that Archimedes used huge mirrors to focus the heat of the sun's rays on enemy ships to burn them. The same (2) _____ is used in solar cookers, where mirrors are used to reflect and focus the sun's rays onto cooking containers. Astronomers use huge concave mirrors to focus starlight. The mirrors used in telescopes are polished by giving a thin coat of silver or aluminium to the glass. With the telescopes, astronomers can see the heavenly bodies, but even without the telescopes one can see the moon. A full moon shining (3) _____ is a beautiful sight. But it is also a puzzle, because if the sun and the moon both give the same light, then why is the moonlight more pleasant? The reason is that the moon reflects very (4) _____ sunlight, in fact, only seven per cent of the light it receives. The earth reflects about half of the radiation that it receives from the sun. Imagine how bright the earth must be looking from the moon! One can even read a book on the moon in the earthlight. However, you do not have to travel all the way to the moon to realise how strong the earth's light is. Observe the crescent moon soon after the new moon. The bright crescent is illuminated by the sun. The rest of the moon is illuminated by earthlight. In other words, the light reflected by the earth is falling on the moon. This is being reflected back to us and is strong enough to show the moon (5) _____. As the crescent increases in size, this effect disappears.

Select the most appropriate option to fill in blank number 3.

(A) beneath
(B) overhead
(C) ahead
(D) upward

Q.19

In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank. Mirrors (1) _____ used since ages. It is said that Archimedes used huge mirrors to focus the heat of the sun's rays on enemy ships to burn them. The same (2) _____ is used in solar cookers, where mirrors are used to reflect and focus the sun's rays onto cooking containers. Astronomers use huge concave mirrors to focus starlight. The mirrors used in telescopes are polished by giving a thin coat of silver or aluminium to the glass. With the telescopes, astronomers can see the heavenly bodies, but even without the telescopes one can see the moon. A full moon shining (3) _____ is a beautiful sight. But it is also a puzzle, because if the sun and the moon both give the same light, then why is the moonlight more pleasant? The reason is that the moon reflects very (4) _____ sunlight, in fact, only seven per cent of the light it receives. The earth reflects about half of the radiation that it receives from the sun. Imagine how bright the earth must be looking from the moon! One can even read a book on the moon in the earthlight. However, you do not have to travel all the way to the moon to realise how strong the earth's light is. Observe the crescent moon soon after the new moon. The bright crescent is illuminated by the sun. The rest of the moon is illuminated by earthlight. In other words, the light reflected by the earth is falling on the moon. This is being reflected back to us and is strong enough to show the moon (5) _____. As the crescent increases in size, this effect disappears.

Select the most appropriate option to fill in blank number 4.

(A) minute
(B) less
(C) petty
(D) little

Q.20

In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank. Mirrors (1) _____ used since ages. It is said that Archimedes used huge mirrors to focus the heat of the sun's rays on enemy ships to burn them. The same (2) _____ is used in solar cookers, where mirrors are used to reflect and focus the sun's rays onto cooking containers. Astronomers use huge concave mirrors to focus starlight. The mirrors used in telescopes are polished by giving a thin coat of silver or aluminium to the glass. With the telescopes, astronomers can see the heavenly bodies, but even without the telescopes one can see the moon. A full moon shining (3) _____ is a beautiful sight. But it is also a puzzle, because if the sun and the moon both give the same light, then why is the moonlight more pleasant? The reason is that the moon reflects very (4) _____ sunlight, in fact, only seven per cent of the light it receives. The earth reflects about half of the radiation that it receives from the sun. Imagine how bright the earth must be looking from the moon! One can even read a book on the moon in the earthlight. However, you do not have to travel all the way to the moon to realise how strong the earth's light is. Observe the crescent moon soon after the new moon. The bright crescent is illuminated by the sun. The rest of the moon is illuminated by earthlight. In other words, the light reflected by the earth is falling on the moon. This is being reflected back to us and is strong enough to show the moon (5) _____. As the crescent increases in size, this effect disappears.

Select the most appropriate option to fill in blank number 5.

(A) lowly
(B) faintly
(C) gloomily
(D) feebly

Explanations

Part-A-General Intelligence and Reasoning

Q.2 · Answer (A) VZ

The first letters move +1, +3, +5 (F, G, J, O), so +7 gives V; the second letters alternate Z and A, so Z comes next: VZ.

Q.3 · Answer (C) (55, 10, 225)

The third number is 5 times the difference of the first two: (40 – 10) × 5 = 150 and (65 – 35) × 5 = 150. Likewise (55 – 10) × 5 = 225.

Q.7 · Answer (B) 63

Each word's code is the sum of its letters' places in the alphabet: ZERO = 26 + 5 + 18 + 15 = 64 and FIVE = 6 + 9 + 22 + 5 = 42. So ELEVEN = 5 + 12 + 5 + 22 + 5 + 14 = 63.

Q.8 · Answer (C) 181

After replacing the letters: 76 + 42 ÷ 6 – 22 + (8 × 15) = 76 + 7 – 22 + 120 = 181.

Q.9 · Answer (A) 231, 308

The differences are 22, 33, 44, 55, rising by 11, so the next two are 66 and 77: 165 + 66 = 231 and 231 + 77 = 308.

Q.10 · Answer (D) NPKR

Each letter is replaced by its opposite letter (A↔Z, B↔Y and so on) moved 2 places back: B → Y → W, O → L → J, T → G → E and H → S → Q, and FACE becomes SXVT the same way. So K → P → N, I → R → P, N → M → K and G → T → R: NPKR.

Q.11 · Answer (C) 700

The terms are divided by 4 and 5 in turn: 56000 ÷ 4 = 14000, 14000 ÷ 5 = 2800, 2800 ÷ 4 = 700, 700 ÷ 5 = 140, 140 ÷ 4 = 35 and 35 ÷ 5 = 7.

Q.12 · Answer (C) All conclusions follow.

All bottles are cups, so some cups are bottles (I); all cups are plates, so some plates are cups (II); and some plates are tables, so some tables are plates (III). All three follow.

Q.13 · Answer (D) + and ×

After interchanging + and ×: 42 × 14 ÷ 28 + 98 – 14 = 588 ÷ 28 + 84 = 21 + 84 = 105.

Q.14 · Answer (C) 3,4,1,5,2

Stamp (st-a) comes first, then Sticker (st-i); the 'str' words follow by their fourth letters, Straight (a), Streaming (e) and Strict (i): 3, 4, 1, 5, 2.

Q.15 · Answer (D) A

Number the seats 0 to 7 going to D's left, with D at 0: G is at 3, E at 6, H at 7 (D's right), B at 4, F at 5 (seat 7, E's other neighbour, is H's) and C at 2, as F is third to C's left. A takes the seat left over, 1, on D's immediate left.

Q.16 · Answer (C) Reptile

A rat is a rodent, and a crocodile a reptile.

Q.17 · Answer (C) TEBRET

Each half of the word is reversed: ADV ICE → VDA ECI and BEL ONG → LEB GNO. So BET TER → TEB RET: TEBRET.

Q.18 · Answer (D) Daughter

P – J: P is J's daughter; J + D: J is D's sister; D ÷ S: D is S's son. J, the sister of S's son, is S's daughter.

Q.19 · Answer (D) Chirantan and Elizabeth
Number the seats 0 to 5 going to Biplab's left, with Biplab at 0: Aman, third to his left, is at 3. Whichever of 2 and 4 Chirantan takes, the only free seats two apart for Divya and Elizabeth (two to Divya's right) are 1 and 5, so Divya is at 1, Chirantan, not beside her, at 4, Elizabeth at 5 and Firoz at 2. Going left from Aman: Chirantan, Elizabeth, then Biplab.

Q.20 · Answer (A) ERSS
The first letters move 1 back (G, F, E, D, C), the second and third 1 forward (P, Q, R, S, T and Q, R, S, T, U) and the fourth 1 back (U, T, S, R, Q): ERSS.

Part-B-General Knowledge and General awareness

Q.1 · Answer (C) Uttar Pradesh
The Nauchandi Mela is held every year at the Nauchandi ground in Meerut, Uttar Pradesh, around the Chandi Devi temple and the dargah of Bale Miyan, which stand almost opposite each other.

Q.2 · Answer (C) V. Anantha Nageswaran
V. Anantha Nageswaran became Chief Economic Adviser on 28 January 2022, after Krishnamurthy Subramanian's term ended in December 2021, and held the post in November 2022 and when the exam was held (January 2023).

Q.3 · Answer (A) P. V. Narsimha Rao
The Eighth Five Year Plan (1992-97) was launched under P. V. Narasimha Rao, Prime Minister from 1991 to 1996; Manmohan Singh was his Finance Minister.

Q.4 · Answer (D) Uday Umesh Lalit
Justice Uday Umesh Lalit was sworn in as the 49th Chief Justice of India on 27 August 2022, succeeding N. V. Ramana, the 48th.

Q.5 · Answer (D) Sattriya
Jatin Goswami of Assam is a Sattriya dancer and guru; he received the Sangeet Natak Akademi Award for Sattriya in 2004 and the Padma Shri in 2008.

Q.6 · Answer (C) agriculture
The First Five Year Plan (1951-56) gave the top priority to agriculture, with irrigation and power, to meet the food shortage after Partition.

Q.7 · Answer (B) Silver
Silver conducts electricity better than any other metal; copper and gold come next.

Q.8 · Answer (C) Naomi Osaka
The tennis player Naomi Osaka lit the cauldron at the opening ceremony of the Tokyo 2020 Olympics, held on 23 July 2021 after a year's delay for Covid-19.

Q.9 · Answer (D) October 2,2019
The Swachh Bharat Mission, launched on 2 October 2014, aimed at a clean India by 2 October 2019, Mahatma Gandhi's 150th birth anniversary.

Q.10 · Answer (A) 35 years
Under Article 58 a candidate for President must be a citizen of India, at least 35 years old and qualified for election to the Lok Sabha.

Q.11 · Answer (B) 1889
Mohun Bagan Athletic Club was founded in Calcutta on 15 August 1889.

Q.12 · Answer (C) USSR (now Russia)
The Fundamental Duties (Article 51A, added by the 42nd Amendment in 1976) were inspired by the Constitution of the former USSR.

Q.13 · Answer (C) Thang Ta
Thang-Ta, Manipur's martial art of the sword (thang) and spear (ta), is also performed as a ritual dance. Bihu is from Assam, Kummi from Tamil Nadu and Kerala, and Danda Jatra from Odisha.

Q.14 · Answer (A) 28 days
The neonatal period is the first 28 days of life; the neonatal mortality rate counts the deaths in it per 1,000 live births.

Q.15 · Answer (D) Octopus
The octopus is a mollusc, like snails and squids. The turtle is a reptile, Musca (the housefly) an insect and the stingray a cartilaginous fish.

Q.16 · Answer (D) Moon
The Moon is Earth's only natural satellite. Callisto and Io (printed 'Lo') are moons of Jupiter, and Titan is Saturn's largest moon.

Q.17 · Answer (B) Assets
Assets are what a firm owns, such as cash, buildings and machinery; liabilities, including loans and debentures, are what it owes.

Q.18 · Answer (C) 1919
Brigadier-General Reginald Dyer took command at Amritsar in April 1919 and ordered the firing at Jallianwala Bagh on 13 April; martial law was proclaimed in parts of Punjab that month.

Q.19 · Answer (B) export of manufactured goods
Exports of manufactured goods expand trade and commerce and earn foreign exchange; imports spend it.

Q.20 · Answer (D) Mehrgarh
Mehrgarh, a Neolithic site near the Bolan Pass, is in Balochistan, Pakistan. Mahagara is in Uttar Pradesh, Chirand in Bihar and Hallur in Karnataka.

Part-C-Elementary Mathematics

Q.2 · Answer (B) 40 m
A runs 1 km in 240 seconds and B in 250. In A's 240 seconds B covers $1000 \times 240/250 = 960$ m, so A wins by 40 m.

Q.3 · Answer (B) 20
At compound interest the money doubles every 10 years, so it doubles again in the next 10: four times in 20 years.

Q.4 · Answer (B) 10%
After the first discount the price is $5{,}000 \times 0.8 = ₹4{,}000$. $3{,}600/4{,}000 = 0.9$, so the second discount is 10%.

Q.5 · Answer (B) 36 and 54
$2/5 \times 90 = 36$ and $3/5 \times 90 = 54$.

Q.6 · Answer (C) 25 kg
$(22.450 + 24.150 + 24.720 + 28.530 + 25.150)/5 = 125/5 = 25$ kg.

Q.7 · Answer (D) 72
60 minutes is 1 hour, so the speed is 72 km/h.

Q.8 · Answer (A) 1.8 cm
SSC's key gives 1.8 cm, the exact radius to one decimal place: $(2/3)\pi \times 5^3 = (1/3)\pi r^2 \times 75$ gives $250/3 = 25r^2$, so $r^2 = 10/3$ and $r = \sqrt{(10/3)} \approx 1.83$ cm.

Q.11 · Answer (D) 15 minutes

A and B close on each other at 5 – 3 = 2 m/s, so they meet every 900/2 = 450 s; A and C at 3 + 6 = 9 m/s, every 100 s; B and C at 5 + 6 = 11 m/s, every 900/11 s. All three first meet at the LCM of these, 900 s = 15 minutes.

Q.14 · Answer (B) 1302

If the smaller number is x, the larger is 6x + 6, and 5x + 6 = 1086 gives x = 216. The larger is 6 × 216 + 6 = 1302.

Q.15 · Answer (C) 12 percent

2,000 × (1 – d) × 0.92 = 1,619.20, so 2,000 × (1 – d) = 1,760, 1 – d = 0.88 and d = 12%.

Q.17 · Answer (B) 175/8 days

A does 1/20 – 1/140 = 6/140 = 3/70 of the work a day and C 1/100 – 1/140 = 2/700 = 1/350. Together 15/350 + 1/350 = 16/350 = 8/175, so they take 175/8 days.

Q.18 · Answer (D) 5

A does 1/4 of the work a day and B 1/8, so each two-day pair does 3/8. After 4 days 6/8 is done, and A finishes the remaining 2/8 on day 5.

Q.19 · Answer (D) ₹7,82,000

The cost price is 5,94,320 ÷ 0.95 = ₹6,25,600, so a 25% profit needs 6,25,600 × 1.25 = ₹7,82,000.

Q.20 · Answer (D) 50000

B got 58%, so the margin is 58% – 42% = 16% of the votes, which is 8000: the total is 8000 ÷ 0.16 = 50000.

Part-D-English

Q.1 · Answer (C) book

'Book' fits both blanks: as a noun, something to read, and as a verb, to reserve tickets.

Q.2 · Answer (A) Joyous

'Doleful' means sad and mournful, so its antonym is 'joyous'. 'Dismal' is close to it in meaning.

Q.3 · Answer (B) addition

The phrase is 'in addition to', meaning as well as; an 'edition' is one version of a book or newspaper.

Q.4 · Answer (C) Dislike

To 'despise' is to regard with strong dislike or contempt, so 'dislike' is the nearest. 'Treasure' and 'like' are nearly its opposites.

Q.5 · Answer (C) Isn’t it

'Difficult' is an adjective and needs the verb 'be', not 'do': 'Isn't it difficult to drive a lorry through a crowded narrow lane?' 'Aren't it' breaks agreement, and 'Would it difficult' still lacks 'be'.

Q.6 · Answer (A) Happen fast and instantaneously

Something that happens 'in the blink of an eye' happens very fast, almost instantly.

Q.7 · Answer (C) inserted

To explain his point the teacher 'inserted', that is added, another picture in the slide. 'Excluded' is the opposite, and 'extracted' and 'obtained' do not fit 'in the slide'.

Q.8 · Answer (B) Very expensive

Something that costs 'an arm and a leg' is very expensive.

Q.9 · Answer (A) Seceade

'Seceade' is misspelt: the word is 'secede', to withdraw formally from a union or organisation.

Q.10 · Answer (B) when

An action in progress ('was walking') cut into by a sudden event is joined to it with 'when': 'was walking through the forest when suddenly he heard someone crying for help.'

Q.11 · Answer (A) Irritate
To 'annoy' is to irritate. 'Delight' is its opposite, and 'testify' and 'suppress' are unrelated.

Q.12 · Answer (B) am
'Tomorrow' points to the future, so 'am' should be 'will be': 'Tomorrow in the exam hall, I will be busy writing answers.'

Q.13 · Answer (A) should
Being taught to obey elders expresses a duty, which takes 'should': 'we were taught that we should obey our elders.'

Q.14 · Answer (C) ceased
'Ceased' (stopped) fits: his vital organs stopped functioning. 'Seized' sounds similar but means grabbed, 'sized' means measured or sorted by size, and 'seas' is a noun.

Q.15 · Answer (C) Optimistic
A 'cynical' person expects the worst of people and things, so the antonym is 'optimistic'.

Q.16 · Answer (C) have been
'Mirrors' is plural and the use runs from the past to now ('since ages'), so the present perfect passive 'have been used' fits.

Q.17 · Answer (B) principle
Archimedes' idea of focusing the sun's rays with mirrors is the 'principle' that solar cookers also use.

Q.18 · Answer (B) overhead
A full moon shining 'overhead' is one high in the sky above us.

Q.19 · Answer (D) little
'Sunlight' is uncountable, and 'very little' means hardly any: the moon reflects only seven per cent. 'Very less' is not standard English.

Q.20 · Answer (B) faintly
Earthlight is weak, so it shows the rest of the moon only 'faintly', that is dimly.
