SSC GD Constable 2022 question paper with answers

2 February 2023 · Shift 3

65 questions as the Staff Selection Commission (SSC) printed them · answers from the official key · marking: +2 for a right answer, –0.50 for a wrong one

The other 15 of the paper's 80 questions are not reproduced: they need a figure or are printed as an image, or ask about formatting the source does not keep.

Try every question first: the answer key and the explanations follow the questions. Official answer-key notice: https://web.archive.org/web/20230219070003/https://ssc.nic.in/SSCFileServer/PortalManagement/UploadedFiles/Write_up_Constable_GD_2022_18022023.pdf

Part-A-General Intelligence and Reasoning 14 questions

Q.1

In a certain code language, ‘BREAD is written as ‘BED19’, ‘IRONY’ is written as ‘IOY32’, how will ‘SHARP’ be written as in that language?

(A) SAP26
(B) 26SAP
(C) SHA26
(D) SAP62

Q.2

Which option represents the correct order of the given words as they would appear in the English dictionary? 1. micro 2. minute 3. miles 4. mimic 5. miniature

(A) 1,5,2,4,3
(B) 1,4,5,3,2
(C) 1,3,4,5,2
(D) 1,4,3,5,2

Q.3

Which of the following numbers will replace the question mark (?) in the given series? 89, 214, ?, 773, 1285, 2014

(A) 422
(B) 342
(C) 430
(D) 446

Q.4

Which letter-cluster will replace the question mark (?) to complete the given series? ZYXW, STUV, RQPO, ?, JIHG, CDEF

(A) NMLK
(B) KLMN
(C) JIHG
(D) LKMN

Q.7

Three statements are given, followed by three conclusions numbered I, II and III. Assuming the statements to be true, even if they seem to be at variance with commonly known facts, decide which of the conclusions logically follow(s) from the statements. Statements: All trees are walls. No wall is a door. Some doors are rooms. Conclusions: I. Some rooms are walls. II. No trees are doors. III. All walls are trees.

(A) Only conclusions I and III follow
(B) All conclusions follow
(C) Only conclusions II and III follow
(D) Only conclusion II follows

Q.8

Select the option that is related to the third word in the same way as the second word is related to the first word. (The words must be considered as meaningful English words and must not be related to each other based on the number of letters/number of consonants/vowels in the word.) Doctor : Hospital :: Engineer : ?

(A) Court
(B) Construct
(C) School
(D) Site

Q.9

Seven people I, J, K, L, M, N and O, are sitting in a straight row, facing the north. Only five people sit to the left of M. J sits third to the left of O. O is not an immediate neighbour of M. K sits to the immediate right of N. I sits fourth to the right of J. Who sits at the extreme right end of the row?

(A) L
(B) K
(C) O
(D) I

Q.10

Select the option that is related to the fifth number in the same way as the second number is related to the first number and the fourth number is related to the third number. 31 : 14 :: 23 : 10 :: 39 : ?

(A) 22
(B) 20
(C) 18
(D) 19

Q.11

Six students are sitting around a circular table facing the centre. Ken is sitting to the immediate right of Joe. Joe is sitting third to the left of Ben. Kat is sitting to the immediate right of Ben. Jen is the immediate neighbour of Ben and Ken. Who is the immediate neighbour of Ken and Mel?

(A) Jen
(B) Ben
(C) Joe
(D) Kat

Q.12

Select the letter-cluster from among the given options that can replace the question mark (?) in the following series. RXUT, VVYX, ZTCB, ?, HPKJ

(A) DRGF
(B) FDNT
(C) DGFR
(D) FQCU

Q.13

Which two numbers(not digits), from the given options, should be interchanged to make the given equation correct? (48 ÷ 3 + 6) ÷ 11 = 81 – 27 ÷ 3 × 5

(A) 48 and 81
(B) 5 and 6
(C) 81 and 27
(D) 11 and 5

Q.14

In a certain code language, ‘CHURCH’ is written as ‘FKXUFK’ and ‘MUMBAI’ is written as ‘PXPEDL’. How will ‘TEMPLE’ be written in that language?

(A) WHPSHO
(B) WHPOSH
(C) WHSPOH
(D) WHPSOH

Q.17

Which two signs should be interchanged to make the below equation mathematically correct? 60 ÷ 3 × 20 – 15 + 12 = 6

(A) × and –
(B) – and +
(C) ÷ and ×
(D) ÷ and –

Q.19

Which of the following numbers will replace the question mark (?) in the given series? 11, 35, 69, 209, 417, ?

(A) 1152
(B) 1125
(C) 1253
(D) 1521

Part-B-General Knowledge and General awareness 16 questions

Q.1
Which of the following award is not awarded on the National sports Day?

(A) Arjuna Award
(B) Dronacharya Award
(C) Paramveer Chakra
(D) Dhyan Chand Award

Q.3
In which year was the Minimum Wages Act introduced in India?

(A) 1950
(B) 1948
(C) 1951
(D) 1949

Q.4
Which of the following dancers is related with Kathakali?

(A) Darshana Jhaveri
(B) Shovana Narayan
(C) Vempati Chinna Satyam
(D) Kunchu Kurup

Q.5
The Criminal Procedure _____, allows police officers or prison officers to collect certain identifiable information (such as fingerprints, biological samples) from convicts or those who have been arrested for an offence.

(A) Samples Act, 2022
(B) Punishment Act, 2022
(C) Marks Act, 2021
(D) Identification Act, 2022

Q.6
In which year was the term 'secular' added to the Preamble of the Indian Constitution?

(A) 1976
(B) 1970
(C) 1972
(D) 1974

Q.7
Blossom shower is common in _____.

(A) Kerala
(B) West Bengal
(C) Assam
(D) Uttar Pradesh

Q.8
What is the chemical name of baking soda?

(A) Calcium sulphate hemihydrate
(B) Sodium hydrogencarbonate
(C) Calcium sulphate
(D) Sodium carbonate

Q.9
_____ provides supporting services in the main areas of industrial and agricultural production, domestic and foreign trade and commerce.

(A) Education
(B) Communication
(C) Trade
(D) Infrastructure

Q.11
A reaction in which reactants combine to form products and again products recombine to form reactants is called _____ reaction.

(A) irreversible
(B) redox
(C) reversible
(D) displacement

Q.12

Which House of the States participate(s) in the election of the President of India?

(A) Legislative Assembly

(B) Neither Legislative Assembly and Legislative Council

(C) Legislative Council

(D) Both, Legislative Assembly and Legislative Council

Q.13

In which of the following year did Australia Host the Commonwealth Games?

(A) 2014

(B) 2018

(C) 1998

(D) 2002

Q.15

Which of the following is NOT a component of the Green Revolution?

(A) Multiple cropping pattern

(B) Application of fertilisers and chemicals

(C) Minimum support price

(D) High yielding variety seeds

Q.16

Who among the following became Member of Legislative Assembly from Mokama, Bihar in India, in November 2022?

(A) Tejashwi Yadav

(B) Neelam Devi

(C) Mohan Kumar Gupta

(D) Anandiben Patel

Q.17

International trade agreements have _____ as parties.

(A) two or more states

(B) two different cities

(C) two or more countries

(D) two or more provinces

Q.18

Who has been elected as the Chairperson of the Audit Bureau of Circulations (ABC) for 2022-2023?

(A) Madhukar Kamath

(B) Pratap Pawar

(C) Ashish Agarwal

(D) Devendra Vijay Darda

Q.20

In _____, a crisis in the balance of payments led to the introduction of economic reforms in India.

(A) 1997

(B) 1991

(C) 2001

(D) 1981

Part-C-Elementary Mathematics 15 questions

Q.1

A shopkeeper offers a pen free on buying every dozen pens. Calculate % discount offered by the shopkeeper. Cost price of all the pens is same.(rounded off to one decimal place)

(A) 8.3 Percent

(B) 12.5 Percent

(C) 6.3 Percent

(D) 7.6 Percent

Q.2

Two trains start at the same time from Bangalore and Chennai and proceed towards each other at the speeds of 80 km/h and 95 km/h. When they meet, it is found that one train has travelled 180 km more than the other. The distance between Bangalore and Chennai is:

(A) 345 km

(B) 400 km

(C) 1200 km

(D) 2100 km

Q.3

M, N, and O can do work in 22, 24, and 16 days respectively. If they work for a day alternately such that M works on the first day, N works on the second day, O works on the third day and then again M works on the fourth day and so on, then in how many days approximately, the work will be completed?

(A) 17 days
(B) 20 days
(C) 16 days
(D) 19 days

Q.4

Abhi has a solid sphere of diameter 10 cm. He cuts it into two equal halves and decides to paint it. The painting cost per square cm is Rs.10. Which of the following is the approximate difference between the painting cost of the sphere and the hemispheres? (Use π = 22/7, rounded off to two decimal places.)

(A) Rs.1,600.00
(B) Rs.1,500.556
(C) Rs.1,571.43
(D) Rs.1,512.45

Q.5

If the price of petrol becomes Rs.110/litre from Rs.95/litre, by how much percentage the consumption of petrol should be reduced by Ravi so that his expenditure remains the same? (correct up to two decimals)

(A) 15.29%
(B) 16.34%
(C) 14.63%
(D) 13.64%

Q.7

The greatest number that can exactly divide 1560 and 2040 is X. What is the value of 121 - X?

(A) 1
(B) 24
(C) 49
(D) 20

Q.9

The fourth proportional 6, 9, 18 is:

(A) 15
(B) 9
(C) 24
(D) 27

Q.12

Three bicycles are bought for Rs.16,500 and the transport cost per bicycle is Rs.200. What should be the selling price (in Rs.) of each bicycle to have a profit of 8%?

(A) 5661
(B) 5166
(C) 6651
(D) 6156

Q.13

If a man climbs a hill at 6 km/h on the journey from foot to top of the hill and returns at 10 km/h, then find his average speed for the journey (in km/h).

(A) 6.5
(B) 4
(C) 8
(D) 7.5

Q.14

Vinod buys an article and sells it at a loss of 5%. If he would have bought it for 20% less and sold it for Rs.25 more, he would have gained 20%. What was the original cost price?

(A) Rs.2,500
(B) Rs.2,000
(C) Rs.2,250
(D) Rs.1,850

Q.15

The present population of a city is estimated to be 10 lakh and is expected to increase to 12.10 lakh during the next 2 years. The uniform annual rate of growth is:

(A) 8%
(B) 12%
(C) 10%
(D) 7%

Q.16

The percentage equivalence of the fraction ¾ is:

(A) 80%
(B) 65%
(C) 75%
(D) 70%

Q.17

In a circular race of 625 m, X and Y start from the same point, at the same time and at speeds of 36 km/h and 54 km/h, respectively. When will they meet again for the first time on the track if they are running in the opposite directions?

(A) In 15 seconds
(B) In 20 seconds
(C) In 25 seconds
(D) In 10 seconds

Q.19

The average marks obtained by Mahesh in five subjects is 62 and he obtains 71 marks in the sixth subject. What is the average of the marks secured by Mahesh in all six subjects?

(A) 63.5
(B) 65.5
(C) 64.6
(D) 62.4

Q.20

The marked price of a woollen jacket is Rs.800. The shopkeeper allows a discount of 10% on every item. Due to off-season, the shopkeeper allows additional discount of 5% on jacket. Find the selling price of the jacket?

(A) Rs.720
(B) Rs.684
(C) Rs.705
(D) Rs.668

Part-D-English 20 questions

Q.1

Select the most appropriate meaning of the given idiom. Keep a straight face

(A) To pretend to be cheerful
(B) When a plan suddenly fails
(C) To be stingy
(D) Look serious though you want to laugh

Q.2

Select the most appropriate synonym of the given word. Attain

(A) Achieve
(B) Abandon
(C) Destroy
(D) Commence

Q.3

Select the most appropriate option to fill in the blank. The play usually needs half an hour for its preparation and makeup, and its performance _____ within ten minutes.

(A) would end
(B) ends
(C) has ended
(D) ended

Q.4

Select the most appropriate option to fill in the blank. Most often, child labour occurs when families _____ financial challenges or uncertainty – whether due to poverty, sudden illness of a caregiver or job loss of a primary wage earner.

(A) face
(B) emulate
(C) contend
(D) happen

Q.5

Select the most appropriate ANTONYM of the given word. Quiet

(A) Stillness
(B) Commotion
(C) Compose
(D) Completely

Q.6

Select the most appropriate option to fill in the blank. It is better to end up certain matters than_____ a dead horse.

(A) talking
(B) riding
(C) coaching
(D) beating

Q.7

Select the most appropriate option that can substitute the underlined segment in the given sentence. If there is no need to substitute it, select 'No substitution required'. While I was driving the car, my brother "talked over phone" to his kid.

(A) was talking over the phone
(B) had talked over the phone
(C) No substitution required
(D) talking over the phone

Q.8

Select the most appropriate synonym of the underlined word in the given sentence. "Incompetent" people keep on blaming others for their failures.

(A) inappropriate
(B) inefficient
(C) incongruous
(D) inevitable

Q.9

Select the most appropriate ANTONYM of the given word. Salient

(A) Noteworthy
(B) Striking
(C) Clear
(D) Negligible

Q.10

Select the most appropriate option to fill in the blank. The cat couldn't find a _____ place for its kittens in the backyard of the house.

(A) stern
(B) drastic
(C) proper
(D) vague

Q.11

Select the most appropriate homophone of the given word. Ate

(A) Egg
(B) Hate
(C) Eight
(D) Weight

Q.12

Select the INCORRECTLY spelt word.

(A) Abundant
(B) Ecstasy
(C) Pionier
(D) Engineer

Q.13

Select the most appropriate option that can substitute the underlined segment in the given sentence. If there is no need to substitute it, select 'No substitution required'. Robinson Crusoe "puzzles" when he discovered a footprint in the sand.

(A) was puzzled
(B) has puzzled
(C) is puzzled
(D) No substitution required

Q.14

Select the most appropriate ANTONYM of the given word. Restore

(A) Destroy
(B) Random
(C) Recover
(D) Productive

Q.15

Select the most appropriate synonym of the word 'doubtful' from the following sentence. He was in a dilemma about the completion of the project investigation because of his health issues.

(A) Completion
(B) Project
(C) Dilemma
(D) Investigation

Q.16

In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank. The world is becoming increasingly (1)_____. Since 2007, more than half of the world's population has been living in cities, and that share is (2)_____ to rise to 60 per cent by 2030. Cities and metropolitan areas are powerhouses of economic growth—(3)_____ about 60 per cent of global GDP. However, they also account for about 70 per cent of global carbon emissions and over 60 per cent of (4)_____ use. Rapid urbanisation is resulting in a growing number of slum dwellers, inadequate and (5)_____ infrastructure and services, worsening air pollution and unplanned urban sprawl.

Select the most appropriate option to fill in blank number 1.

(A) intensified
(B) urbanised
(C) localised
(D) decentralised

Q.17

In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank. The world is becoming increasingly (1)_____. Since 2007, more than half of the world's population has been living in cities, and that share is (2)_____ to rise to 60 per cent by 2030. Cities and metropolitan areas are powerhouses of economic growth—(3)_____ about 60 per cent of global GDP. However, they also account for about 70 per cent of global carbon emissions and over 60 per cent of (4)_____ use. Rapid urbanisation is resulting in a growing number of slum dwellers, inadequate and (5)_____ infrastructure and services, worsening air pollution and unplanned urban sprawl.

Select the most appropriate option to fill in blank number 2.

(A) projected
(B) contrived
(C) multiplied
(D) planned

Q.18

In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank. The world is becoming increasingly (1)_____. Since 2007, more than half of the world's population has been living in cities, and that share is (2)_____ to rise to 60 per cent by 2030. Cities and metropolitan areas are powerhouses of economic growth—(3)_____ about 60 per cent of global GDP. However, they also account for about 70 per cent of global carbon emissions and over 60 per cent of (4)_____ use. Rapid urbanisation is resulting in a growing number of slum dwellers, inadequate and (5)_____ infrastructure and services, worsening air pollution and unplanned urban sprawl.

Select the most appropriate option to fill in blank number 3.

(A) attempting
(B) exploiting
(C) contributing
(D) causing

Q.19

In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank. The world is becoming increasingly (1)_____. Since 2007, more than half of the world's population has been living in cities, and that share is (2)_____ to rise to 60 per cent by 2030. Cities and metropolitan areas are powerhouses of economic growth—(3)_____ about 60 per cent of global GDP. However, they also account for about 70 per cent of global carbon emissions and over 60 per cent of (4)_____ use. Rapid urbanisation is resulting in a growing number of slum dwellers, inadequate and (5)_____ infrastructure and services, worsening air pollution and unplanned urban sprawl.

Select the most appropriate option to fill in blank number 4.

(A) wealth
(B) nature
(C) assets
(D) resource

Q.20

In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank. The world is becoming increasingly (1)_____. Since 2007, more than half of the world's population has been living in cities, and that share is (2)_____ to rise to 60 per cent by 2030. Cities and metropolitan areas are powerhouses of economic growth—(3)_____ about 60 per cent of global GDP. However, they also account for about 70 per cent of global carbon emissions and over 60 per cent of (4)_____ use. Rapid urbanisation is resulting in a growing number of slum dwellers, inadequate and (5)_____ infrastructure and services, worsening air pollution and unplanned urban sprawl.

Select the most appropriate option to fill in blank number 5.

(A) destructed
(B) overburdened
(C) redundant
(D) necessary

Q.19 **(D)**	Q.20 **(B)**				

Explanations

Part-A-General Intelligence and Reasoning

Q.1 · Answer (A) SAP26

The code keeps the 1st, 3rd and 5th letters and adds the places of the 2nd and 4th: BREAD → B, E, D and R + A = 18 + 1 = 19; IRONY → I, O, Y and R + N = 18 + 14 = 32. So SHARP → S, A, P and H + R = 8 + 18 = 26: SAP26.

Q.2 · Answer (C) 1,3,4,5,2

In dictionary order: micro (1), miles (3), mimic (4), miniature (5), minute (2). After 'mi', 'c' comes before 'l', 'm' and 'n', and 'mini' comes before 'minu'.

Q.3 · Answer (C) 430

The differences are the cubes $5^3 = 125$, $6^3 = 216$, $7^3 = 343$, $8^3 = 512$ and $9^3 = 729$: 214 + 216 = 430, and 430 + 343 = 773.

Q.4 · Answer (B) KLMN

Backward and forward runs of four letters alternate. The backward runs start at Z, R and J and the forward runs at S, ?, C, each 8 letters before the one before it, so the missing run starts at S – 8 = K and goes forward: KLMN.

Q.7 · Answer (D) Only conclusion II follows

All trees are walls and no wall is a door, so no tree is a door (II). The rooms that are doors cannot be walls, and nothing places any other room among the walls, so I does not follow; nor need every wall be a tree (III).

Q.8 · Answer (D) Site

A doctor works in a hospital; an engineer works on a site. 'Construct' is what an engineer does, not a place.

Q.9 · Answer (A) L

Five sit to M's left, so M is sixth from the left. With O third to the right of J and I fourth to the right of J, J, O and I sit at 1, 4 and 5 (J at 2 would put O next to M, and J at 3 would put O in M's seat). N and K take 2 and 3, K to N's right, which leaves L at 7, the right end.

Q.10 · Answer (C) 18

The second number is the first minus 3, halved: (31 – 3)/2 = 14 and (23 – 3)/2 = 10. So (39 – 3)/2 = 18.

Q.11 · Answer (C) Joe

Joe is third from Ben, so they sit opposite each other. Ken sits on Joe's right and Kat on Ben's right; Jen, a neighbour of both Ben and Ken, sits between them, and Mel takes the last seat, between Kat and Joe. Going round: Joe, Ken, Jen, Ben, Kat, Mel, so Joe sits between Ken and Mel.

Q.12 · Answer (A) DRGF

The first letters move +4 (R, V, Z, D, H), the second –2 (X, V, T, R, P), the third +4 (U, Y, C, G, K) and the fourth +4 (T, X, B, F, J), wrapping round after Z: DRGF.

Q.13 · Answer (A) 48 and 81

Interchanging 48 and 81: (81 ÷ 3 + 6) ÷ 11 = 33 ÷ 11 = 3, and 48 – 27 ÷ 3 × 5 = 48 – 45 = 3.

Q.14 · Answer (D) WHPSOH

Each letter moves 3 places forward: CHURCH → FKXUFK and MUMBAI → PXPEDL. So TEMPLE → WHPSOH.

Q.17 · Answer (C) ÷ and ×

Interchanging ÷ and ×: 60 × 3 ÷ 20 – 15 + 12 = 9 – 15 + 12 = 6.

Q.19 · Answer (C) 1253

The steps alternate ×3 + 2 and ×2 – 1: 11 × 3 + 2 = 35, 35 × 2 – 1 = 69, 69 × 3 + 2 = 209, 209 × 2 – 1 = 417 and 417 × 3 + 2 = 1253.

Part-B-General Knowledge and General awareness

Q.1 · Answer (C) Paramveer Chakra

The Arjuna, Dronacharya and Dhyan Chand Awards are National Sports Awards, traditionally presented on National Sports Day, 29 August, Major Dhyan Chand's birth anniversary. The Param Vir Chakra is India's highest military gallantry award.

Q.3 · Answer (B) 1948

The Minimum Wages Act, 1948 lets the government fix minimum rates of wages for workers in scheduled employments.

Q.4 · Answer (D) Kunchu Kurup

Kunchu Kurup (Thakazhi Kunchu Kurup) was a celebrated Kathakali actor from Kerala. Darshana Jhaveri is a Manipuri dancer, Shovana Narayan a Kathak dancer and Vempati Chinna Satyam a Kuchipudi guru.

Q.5 · Answer (D) Identification Act, 2022

The Criminal Procedure (Identification) Act, 2022 lets police and prison officers take measurements such as finger and palm prints, photographs, iris and retina scans and biological samples of convicts and arrested persons. It replaced the Identification of Prisoners Act, 1920.

Q.6 · Answer (A) 1976

The 42nd Amendment Act, 1976 added 'socialist', 'secular' and 'integrity' to the Preamble.

Q.7 · Answer (A) Kerala

Blossom showers are pre-monsoon showers in Kerala and nearby areas that make the coffee plants flower; the similar 'mango showers' of Kerala and coastal Karnataka help mangoes ripen early.

Q.8 · Answer (B) Sodium hydrogencarbonate

Baking soda is sodium hydrogencarbonate, $NaHCO_3$. Sodium carbonate is washing soda (as its decahydrate), and calcium sulphate hemihydrate is plaster of Paris.

Q.9 · Answer (D) Infrastructure

Infrastructure, such as power, transport, communication, water supply and banking, is the support system on which production on farms and in factories, and trade at home and abroad, depend.

Q.11 · Answer (C) reversible

In a reversible reaction the products can react to give back the reactants, so the reaction runs both ways.

Q.12 · Answer (A) Legislative Assembly

Under Article 54 the President is elected by the elected members of both Houses of Parliament and of the Legislative Assemblies of the States (and of Delhi and Puducherry). Members of the Legislative Councils have no vote.

Q.13 · Answer (B) 2018

Of these years, Australia hosted the Commonwealth Games in 2018, at the Gold Coast in Queensland. The 2014 Games were held in Glasgow, those of 2002 in Manchester and those of 1998 in Kuala Lumpur.

Q.15 · Answer (C) Minimum support price

SSC's key gives minimum support price. The Green Revolution's components were farm technologies and practices: high-yielding seeds, fertilisers and other chemicals, irrigation and multiple cropping. Support prices, introduced in the mid-1960s to encourage farmers to adopt the new seeds, were a price policy that came alongside it, though some accounts count them as part of the wider strategy.

Q.16 · Answer (B) Neelam Devi

Neelam Devi of the RJD won the Mokama by-election, counted on 6 November 2022. The seat had fallen vacant when her husband, Anant Singh, was disqualified after a conviction in an arms case.

Q.17 · Answer (C) two or more countries

SSC's key gives 'two or more countries': international trade agreements are made between countries, setting terms such as tariffs and quotas. In international law 'state' also means a sovereign country, but here it stands beside cities and provinces, the units within a country.

Q.18 · Answer (B) Pratap Pawar

Pratap Pawar, chairman of the Sakal Media Group, was elected Chairman of the Audit Bureau of Circulations, which certifies the circulation of publications, for 2022-23.

Q.20 · Answer (B) 1991

In 1991 India's foreign exchange reserves fell to barely enough for a few weeks of imports; the crisis led to the New Economic Policy of liberalisation, privatisation and globalisation, launched that July.

Part-C-Elementary Mathematics

Q.1 · Answer (D) 7.6 Percent

SSC's key gives 7.6%: the buyer pays for 12 pens and gets 13, a discount of 1/13 of the price, or 7.69%, which the key cuts short; rounded off to one decimal place it would be 7.7%, which is not an option.

Q.2 · Answer (D) 2100 km

The faster train gains 95 − 80 = 15 km every hour, so the 180 km lead takes 12 hours. Together they cover (80 + 95) × 12 = 2,100 km.

Q.3 · Answer (B) 20 days

Taking the work as 528 units (the LCM of 22, 24 and 16), M, N and O do 24, 22 and 33 units a day, 79 in each 3-day round. Six rounds (18 days) give 474 units, and M and N add 46 on days 19 and 20, leaving 8 units, which O finishes in 8/33 of day 21: about 20.2 days, or 20.

Q.4 · Answer (C) Rs.1,571.43

Cutting adds two flat circular faces of radius 5 cm: $2\pi r^2 = 2 \times 22/7 \times 25 = 1100/7 = 157.14$ cm². At ₹10 per cm² the difference is 11000/7 = ₹1,571.43.

Q.5 · Answer (D) 13.64%

To keep spending the same, consumption must fall by (110 − 95)/110 × 100 = 1500/110 = 13.64%.

Q.7 · Answer (A) 1

2040 − 1560 = 480, 1560 = 3 × 480 + 120 and 480 = 4 × 120, so the HCF X = 120 and 121 − 120 = 1.

Q.9 · Answer (D) 27

6 : 9 = 18 : x gives x = 9 × 18/6 = 27.

Q.12 · Answer (D) 6156

Total cost = 16,500 + 3 × 200 = ₹17,100. For an 8% profit the three must sell for 17,100 × 1.08 = ₹18,468, or ₹6,156 each.

Q.13 · Answer (D) 7.5

For equal distances the average speed is 2 × 6 × 10/(6 + 10) = 120/16 = 7.5 km/h.

Q.14 · Answer (A) Rs.2,500

With cost price x he sells at 0.95x. Bought at 0.8x with a 20% gain, the selling price would be 0.96x, which is 0.95x + 25, so 0.01x = 25 and x = ₹2,500.

Q.15 · Answer (C) 10%

$(1 + r)^2 = 12.10/10 = 1.21$, so 1 + r = 1.1 and the rate is 10% a year.

Q.16 · Answer (C) 75%

¾ × 100 = 75%.

Q.17 · Answer (C) In 25 seconds
36 km/h = 10 m/s and 54 km/h = 15 m/s. Running in opposite directions they close at 25 m/s, so they first meet after 625/25 = 25 seconds.

Q.19 · Answer (A) 63.5
(5 × 62 + 71)/6 = 381/6 = 63.5.

Q.20 · Answer (B) Rs.684
₹800 × 0.90 × 0.95 = ₹684.

Part-D-English

Q.1 · Answer (D) Look serious though you want to laugh
To 'keep a straight face' is to look serious while trying not to laugh.

Q.2 · Answer (A) Achieve
To 'attain' is to achieve or reach a goal. 'Abandon' means give up, 'destroy' ruin and 'commence' begin.

Q.3 · Answer (B) ends
The sentence describes what usually happens ('usually needs'), so the simple present 'ends' matches it.

Q.4 · Answer (A) face
Families 'face' financial challenges. 'Contend' would need 'with', and 'emulate' (imitate) and 'happen' do not fit.

Q.5 · Answer (B) Commotion
'Quiet' means calm and silent; 'commotion' is a noisy disturbance. 'Stillness' is a synonym, and 'compose' and 'completely' are unrelated.

Q.6 · Answer (D) beating
To 'beat a dead horse' is to waste effort on a matter that is already settled or cannot be changed.

Q.7 · Answer (A) was talking over the phone
An action in progress at the same time as 'I was driving' takes the past continuous, and the phrase is 'over the phone': 'my brother was talking over the phone to his kid'.

Q.8 · Answer (B) inefficient
'Incompetent' means lacking the skill to do something well: 'inefficient'. 'Incongruous' means out of place and 'inevitable' unavoidable.

Q.9 · Answer (D) Negligible
'Salient' means most noticeable or important; its opposite is 'negligible', too small to matter. 'Noteworthy', 'striking' and 'clear' are close to synonyms.

Q.10 · Answer (C) proper
A 'proper' place is a suitable one. 'Stern' (strict), 'drastic' (extreme) and 'vague' (unclear) do not describe a place for kittens.

Q.11 · Answer (C) Eight
'Ate', the past tense of 'eat', sounds exactly like 'eight' but differs in spelling and meaning. 'Hate' and 'weight' begin with a different sound.

Q.12 · Answer (C) Pionier
The correct spelling is 'pioneer'.

Q.13 · Answer (A) was puzzled
'Discovered' sets the sentence in the past, and Crusoe is the one confused, so the passive past 'was puzzled' is needed: 'Robinson Crusoe was puzzled when he discovered a footprint in the sand.'

Q.14 · Answer (A) Destroy
To 'restore' is to bring back or repair; to 'destroy' is to ruin. 'Recover' is close in meaning, and 'random' and 'productive' are unrelated.

Q.15 · Answer (C) Dilemma
To be in a 'dilemma' is to be unsure which way to decide, the sense of 'doubtful'; the other three words carry no doubt. ('Dilemma' is a noun, so it matches the sense rather than the part of speech.)

Q.16 · Answer (B) urbanised
The next sentence says more than half the world's people have lived in cities since 2007: the world is becoming increasingly 'urbanised'.

Q.17 · Answer (A) projected
A share expected in the future, by 2030, is 'projected' to rise.

Q.18 · Answer (C) contributing
Cities are powerhouses of growth because they produce, or are 'contributing', about 60 per cent of global GDP.

Q.19 · Answer (D) resource
'Resource use', the use of natural resources such as energy, water and materials, is the cost cities carry alongside their carbon emissions.

Q.20 · Answer (B) overburdened
Rapid urbanisation strains infrastructure and services, leaving them inadequate and 'overburdened', loaded beyond their capacity.
