Explanations

Part-A-General Intelligence and Reasoning

Q.1 · Answer (B) UOJSQ

Each word is reversed and every letter moved one place forward: STORY → YROTS → ZSPUT and MUSIC → CISUM → DJTVN. So PRINT → TNIRP → UOJSQ.

Q.4 · Answer (C) 63

After replacing the signs: 12 × 5 + 24 ÷ 3 – 5 = 60 + 8 – 5 = 63.

Q.5 · Answer (D) 155, 200

The differences are 9, 12, 15, 18, 21, 24, rising by 3: 137 + 18 = 155, 155 + 21 = 176 and 176 + 24 = 200.

Q.6 · Answer (C) × and ÷

After interchanging × and ÷: 96 ÷ 8 + 27 × 6 – 12 = 12 + 162 – 12 = 162.

Q.7 · Answer (C) 3,4,2,5,1

In dictionary order: Nail (3), Name (4), Nasty (2), Natural (5), Naughty (1). All begin 'Na', so the third letters, i, m, s, t, u, decide the order.

Q.8 · Answer (C) Father's father

A is the mother of B and E and is married to C, so C is their father. P is E's wife, so E is K's father and C is K's father's father. (The family described has eight members, not seven; the relation is unaffected.)

Q.9 · Answer (A) Bat

Ludo is played with dice; cricket is played with a bat.

Q.11 · Answer (A) IG

The first letters move 5 places back, wrapping round after A: C, X, S, N, I. The second letters run C, D, E, F, G. The next cluster is IG.

Q.12 · Answer (C) 15, 21

The differences are 2, 3, 4, 5, 6, 7, ...: 10 + 5 = 15, 15 + 6 = 21 and 21 + 7 = 28.

Q.13 · Answer (D) HHQR

The first letters run F, G, H, I, J; the second J, I, H, G, F; the third O, P, Q, R, S; the fourth T, S, R, Q, P. The missing cluster is HHQR.

Q.15 · Answer (B) 4

The first number is 7 times the second, minus 1: 5 × 7 – 1 = 34 and 2 × 7 – 1 = 13. Since 27 = 4 × 7 – 1, the answer is 4.

Q.16 · Answer (C) R

Q is at the left end with R immediately to Q's right; S sits between T and P with P on S's right, so the row from the left is Q, R, T, S, P. R sits between Q and T.

Q.17 · Answer (B) A and F

Going round to the right from E, the order is E, B, D, A, F, C: D is second to the right of E, F second to the right of D, and B, next to E, is second to the right of C. Had B sat on E's other side, C would take the seat between D and F and A would end up next to E. Going right from D, A and F sit between D and C.
