Explanations

General English

Q.1 · Answer (D) Curator

A curator is the person in charge of a museum's or gallery's collection.

Q.2 · Answer (D) exceptional

'Mundane' means dull and ordinary, so its opposite is 'exceptional'. 'Standard' and 'customary' are close to its meaning.

Q.3 · Answer (B) makes me feel

'The smell' is singular, so the verb is 'makes', and 'make' is followed by the bare infinitive 'feel': 'The smell of this flower makes me feel dizzy.' (The sheet's underline also takes in 'dizzy.', which the options leave out.)

Q.4 · Answer (B) Impediment

A hurdle is an obstacle, an 'impediment'. 'Progress' and 'aid' are nearly opposite.

Q.5 · Answer (B) during its business trip

The subject 'they' is plural, so the possessive must be 'their': 'during their business trip'.

Q.6 · Answer (A) who have been coming

Employees are people, so the relative pronoun is 'who', and the plural noun takes 'have': 'Suspend all the employees who have been coming late.'

Q.7 · Answer (D) Accolade

An accolade is an award or an expression of praise. A 'complement' completes something, and a 'statute' is a law.

Q.8 · Answer (C) burden

To be relieved of something is to be freed from a weight: seeing talent as inborn frees a person from the 'burden' of expectation.

Q.9 · Answer (D) Soothe

To 'agitate' is to disturb or excite; its opposite is to 'soothe', to calm. 'Distress' is close to its meaning.

Q.10 · Answer (A) will have purchased

Immortality is what is bought, not the buyer, so the verb must be passive: 'will have been purchased'.

Q.11 · Answer (A) Tendency

The correct spelling is 'tendency', ending in '-ency'.

Q.12 · Answer (C) Errand

An errand is a short trip to do a task, such as buying or delivering something; one goes 'on an errand'.

Q.13 · Answer (B) Triennial

'Triennial' means happening every three years. 'Annual' is every year, 'biennial' every two years and 'millennial' every thousand years.

Q.15 · Answer (D) for

The price something is sold at is introduced by 'for': to sell an orange 'for ₹10'.

Q.16 · Answer (D) strict and harsh control

To govern 'with an iron hand' is to keep strict and harsh control.

Q.17 · Answer (D) acting suspecting in their areas

The verb 'acting' needs an adverb of manner: 'acting suspiciously', not 'acting suspecting'.

Q.18 · Answer (B) it acquires a

The subject 'a plastic comb' is singular, so the pronoun is 'it', and a general fact takes the simple present: 'it acquires a static charge'.

Q.19 · Answer (B) Whatever happens
'Come rain or shine' means whatever happens, in any circumstances.

Q.20 · Answer (C) Assiduous
Said of a person, 'laborious' means hard-working and industrious, which is what 'assiduous' (diligent, persevering) means. 'Unsophisticated', 'profane' (irreverent) and 'pompous' have nothing to do with effort.

Q.21 · Answer (D) Signing
Coca-Cola becomes the sponsor after 'signing' a deal, that is formally agreeing to one.

Q.22 · Answer (A) Leading
A 'leading' tourist attraction is one of the most popular: the wheel has been one since it opened in 2000.

Q.23 · Answer (D) Known
'Known as' gives the name it went by: when it was introduced in 2000 it was called the Millennium Wheel.

Q.24 · Answer (A) Sponsored
The passage is about sponsors: British Airways 'sponsored' the wheel before it became the EDF Energy London Eye.

Q.25 · Answer (A) Striking
SSC's key gives 'striking': to 'strike a deal' is the set phrase for reaching an agreement. 'Forging' a deal is also heard, but 'strike' is the usual verb with 'deal', and 'discovering' and 'hedging' do not fit.

General Intelligence and Reasoning

Q.1 · Answer (B) WIV
The first letters run T, U, V, W, X (+1), the second O, M, K, I, G (–2) and the third M, P, S, V, Y (+3): WIV.

Q.2 · Answer (A) 196
The terms are the squares of 11 to 16: 11^2, 12^2, 13^2, $14^2 = 196$, 15^2 and 16^2.

Q.3 · Answer (C) 29 : 31
17 and 19 are consecutive prime numbers, 2 apart; so are 29 and 31. 27 is not prime, and neither 43 and 53 nor 31 and 41 are consecutive primes.

Q.4 · Answer (D) 87
The letters' places in the alphabet are added and the sum multiplied by 3: GANT → (7 + 1 + 14 + 20) × 3 = 126 and PROM → (16 + 18 + 15 + 13) × 3 = 186. So GAIL → (7 + 1 + 9 + 12) × 3 = 87.

Q.5 · Answer (C) Both conclusions I and II follow
All N are X and all X are B, so all N are B (I). As all X are B, some B are X (II). Both follow.

Q.7 · Answer (B) EL
