Explanations

General English

Q.1 · Answer (D) Fugitive

A fugitive is a person who has run away, especially from the law. A sadist enjoys causing pain, an altruist puts others first and an insolvent person cannot pay their debts.

Q.2 · Answer (B) Very rarely

Something that happens 'once in a blue moon' happens very rarely.

Q.3 · Answer (C) Crusted

'Crusted' means covered with or forming a crust, a hard outer layer. 'Crunched' and 'crushed' describe pressing or breaking, and 'cursed' is unrelated.

Q.4 · Answer (A) Adamant

'Adamant' (refusing to change one's mind) is spelt correctly; the others should be 'amorphous', 'despotic' and 'contentious'.

Q.5 · Answer (C) am not going

'Be going to' expresses an intention about the future: 'I am not going to harm this dog.'

Q.6 · Answer (C) before

The past perfect 'had gone' marks the earlier action, and 'before' links it to the later one: she went out to drink water before the examination started.

Q.7 · Answer (B) sluggish

'Sluggish' means slow and lacking energy, which goes with 'lazy' after strenuous work. 'Lively' and 'bouncing' mean the opposite.

Q.8 · Answer (B) Lazy

'Ambitious' means eager to succeed and willing to work for it, so 'lazy' is nearest to its opposite. 'Vigorous', 'dynamic' and 'lively' all suggest energy.

Q.9 · Answer (C) Cardiology

Cardiology is the branch of medicine that deals with the heart and its diseases. Pharmacology studies drugs, anthropology human societies and microbiology microorganisms.

Q.10 · Answer (D) compassionate

'Compassionate' (feeling and showing sympathy for others) sits naturally with 'forgiving'. 'Respective' means belonging to each separately and does not fit.

Q.11 · Answer (D) San Francisco is more bigger

'Bigger' is already comparative, so 'more' must go: 'San Francisco is bigger than Boston'.

Q.12 · Answer (A) No improvement required

The sentence is correct: 'the responsibility of' takes the gerund 'finding', with 'our daughter' as its object. The options change the sense or break the grammar.

Q.13 · Answer (B) To be exactly right about something

To 'hit the nail on the head' is to describe or judge something exactly right.

Q.14 · Answer (D) Lasting

'Fleeting' means lasting only a very short time, so its opposite is 'lasting'. 'Passing' and 'brief' are synonyms.

Q.15 · Answer (D) Auspicious

'Propitious' means favourable, promising success: 'auspicious'. 'Inimical' (harmful, hostile) is nearly its opposite, and 'cogent' means convincing.

Q.16 · Answer (B) life begins

'Nearly 3.5 billion years ago' places the event in the past, so the verb must be simple past: 'life began'.

Q.17 · Answer (C) caustic
'Sarcastic' means mocking in a bitter, cutting way: 'caustic'. 'Playful', 'mild' and 'rational' lack the sting.

Q.19 · Answer (C) not
'Not' negates the adjective 'willing': 'I am not willing to sign'. 'No' goes before a noun, 'none' is a pronoun and 'nor' joins negative clauses.

Q.20 · Answer (D) further worse
The modal 'may' needs a verb after it, and 'worse' is an adjective: 'may further worsen the flood situation'.

Q.21 · Answer (C) experts
Speech pathologists are trained specialists, 'experts' in communication disabilities; 'quacks' are fake practitioners.

Q.22 · Answer (A) across
They work 'across' a variety of sites, that is, in many different hospital and community settings.

'Such as' introduces examples: 'allied health professionals such as psychologists, occupational therapists...'.

Q.25 · Answer (B) workers
'Social workers' are professionals who help people with social and personal problems, listed here with the therapists.

General Intelligence and Reasoning

Q.1 · Answer (D) KZXPZTV
Each letter is replaced by its opposite in the alphabet (A↔Z, B↔Y and so on): ACADEMY → ZXZWVNB and FINANCE → URMZMXV. So PACKAGE → KZXPZTV.

Q.3 · Answer (C) PCI
The first letters run T, S, R, Q, P; the second move back 3 (O, L, I, F, C); the third move back 5 (C, X, S, N, I), wrapping round from A to Z. The next cluster is PCI.

Q.4 · Answer (C) 600
After interchanging the signs: 516 × 2558 ÷ 172 + 12 − 7086 = 3 × 2558 + 12 − 7086 = 7674 + 12 − 7086 = 600.

Q.5 · Answer (D) QOL
The letters are reversed and each moved back 3: POK → KOP → HLM. So ORT → TRO → QOL.

Q.6 · Answer (A) 2
'Black' is in the first two sentences and '5' in their codes; 'Water' is in the first and third, with '1'. So in '251' for 'Water is Black', 'is' = 2.

Q.7 · Answer (B) HDO
The letters are reversed and moved +4, +3 and +2: LON → NOL → RRN. So MAD → DAM → HDO.

Q.8 · Answer (D) Only conclusion II follows.
'No apples are trees' converts to 'No tree is an apple', so II follows. Nothing links apples to dense things, so I does not follow.

Q.9 · Answer (B) 1165
Each term is the one before times n plus n, for n = 2, 3, 4, ...: 8 × 2 + 2 = 18, 18 × 3 + 3 = 57, 57 × 4 + 4 = 232, 232 × 5 + 5 = 1165 and 1165 × 6 + 6 = 6996.

Q.11 · Answer (C) 70
The differences are the prime numbers 2, 3, 5, 7, 11: 63 + 7 = 70 and 70 + 11 = 81.

Q.13 · Answer (A) Only II is correct.
After interchanging, I becomes 105 × 10 ÷ 75 + 12 − 25 = 14 + 12 − 25 = 1, not 3; II becomes 75 ÷ 25 × 12 + 14 − 10 = 36 + 4 = 40, which is correct.

Q.15 · Answer (B) JIEMOB
The word is reversed, then its first three letters move +2 and its last three +1: TRAIND → DNIART → FPKBSU. So ANLCGH → HGCLNA → JIEMOB.

Q.16 · Answer (A) # %
'Grains' and 'rice' are the only words in both sentences, and '#' and '%' the only codes in both, so 'grains rice' is '# %'.

Q.17 · Answer (A) One
