Explanations

General English

Q.1 · Answer (B) An instinct or intuition

A 'gut feeling' is an instinctive sense that something is so, without conscious reasoning.

Q.2 · Answer (D) No error

The sentence is correct: the plural 'trends' takes 'come', and to 'come onto the scene' is to appear or arrive.

Q.3 · Answer (C) suggest

The plural subject 'the weather patterns' needs a plural active verb: 'suggest'. 'Suggests' and 'has suggested' are singular, and the passive 'have been suggested' does not fit patterns that do the suggesting.

Q.4 · Answer (D) my research rely at phone calls

One relies 'on' something, not 'at' it: 'Most of the families in my research rely on phone calls'.

Q.5 · Answer (B) Aviary

An aviary is a large enclosure for keeping birds. A kennel houses dogs, an apiary is where bees are kept and a den is a wild animal's lair.

Q.6 · Answer (D) No improvement required

The present perfect continuous with 'for twelve hours' describes sleep that began in the past and is still going on, and the singular 'my son' takes 'has': the underlined part is correct.

Q.7 · Answer (A) banned

'Banned' means officially forbidden. 'Bend', 'band' and 'bated' look or sound alike but do not fit the sense.

Q.8 · Answer (B) Immersive

'Immersive' is spelt correctly. The others should be 'experiences', 'institutionalised' and 'tremendous'.

Q.9 · Answer (D) Collude

SSC's key gives 'collude', the only option that means working together with others, though it usually suggests a secret or dishonest purpose that 'collaborate' here does not. 'Repel', 'defy' and 'captivate' are unrelated.

Q.10 · Answer (C) Imitation

Imitation is the act of copying someone or something, taking it as a model.

Q.11 · Answer (B) Vehical

The correct spelling is 'vehicle'.

Q.12 · Answer (C) Going above and beyond whatever is required for the task at hand

To 'go the extra mile' is to make more effort than is expected or required.

Q.13 · Answer (C) a spectacle

Glasses for the eyes are 'spectacles', always plural, so 'a spectacle' is wrong: 'usually wears spectacles'. 'A spectacle' is an impressive sight or show.

Q.14 · Answer (D) Cultured

'Polished' in the sense of refined and elegant is close to 'cultured'. 'Crude' is nearly its opposite.

Q.15 · Answer (B) moved the damaged

The past 'was blocked' needs the past 'moved' in the 'till' clause, and the vehicles are 'damaged', a past participle used as an adjective: 'till the time the cranes moved the damaged vehicles'.

Q.16 · Answer (B) Praise

To scold is to criticise someone angrily; the opposite is to 'praise'.

Q.17 · Answer (C) Reasonable

'Irrational' means not based on reason; its opposite is 'reasonable'. 'Illogical' is a synonym.

Q.18 · Answer (D) Confluence
Divergence is a moving apart; 'confluence' is a coming together. 'Separation' and 'departure' are close to divergence itself.

Q.19 · Answer (B) tripped over some large roots and cut
One trips 'over' an obstacle, and the second verb must be past tense like 'tripped': 'tripped over some large roots and cut her head on a rock'.

Q.20 · Answer (D) didn't see any
'Did' (here 'didn't') is followed by the base form of the verb: 'I didn't see any point in spending money on new clothes.'

Q.21 · Answer (D) vital
Regular check-ups are 'vital', that is essential, for a car's top-notch performance; 'trivial' and 'nominal' mean unimportant.

Q.22 · Answer (C) between
A link joins two things: a link 'between' your car's health and its emissions.

Q.23 · Answer (D) more
A well-maintained engine is 'more efficient', a comparison that matches 'burns less gas'.

Q.24 · Answer (C) thereby
'Thereby' means 'by that means': burning less gas thereby reduces airborne emissions.

Q.25 · Answer (C) must
'Must' states a requirement: tyre pressure must always match the recommended rating. 'Have to' would need 'has to' with the singular 'tyre pressure'.

General Intelligence and Reasoning

Q.1 · Answer (A) 336
Each term is the product of three consecutive numbers: $1 \times 2 \times 3 = 6$, $2 \times 3 \times 4 = 24$, $3 \times 4 \times 5 = 60$, $4 \times 5 \times 6 = 120$ and $5 \times 6 \times 7 = 210$, so the next is $6 \times 7 \times 8 = 336$.

Q.2 · Answer (B) EFQR
The first two letters move 2 places forward (WX, YZ, AB, CD, EF) and the last two move 2 places back (YZ, WX, UV, ST, QR): EFQR.

Q.3 · Answer (C) 41
The code is the sum of the letters' places in the alphabet minus the number of letters: BRAVE = 2 + 18 + 1 + 22 + 5 = 48 and 48 − 5 = 43; BOTH = 2 + 15 + 20 + 8 = 45 and 45 − 4 = 41. ABACUS = 1 + 2 + 1 + 3 + 21 + 19 = 47, and 47 − 6 = 41.

Q.4 · Answer (D) 336
Each term is 24 more than the one before: 312 + 24 = 336, and 336 + 24 = 360.

Q.5 · Answer (B) E
Number the seats 1 to 9 from left to right as the people face. E is in seat 5 and G at an end. G in seat 9 would put B in 2, A in 6, F in 8 and I in 4, next to E, so G is in seat 1, B in 8, A in 4, F in 6 and I in 2. C cannot sit next to B, so C is in 3, and D and H take 7 and 9 with H to D's right: G I C A E F D B H. Fourth to the right of G is E.

Q.7 · Answer (B) 2 and 13
Swapping 2 and 13: $26 \div 13 + 2 \times 6 - 4 = 2 + 12 - 4 = 10$.

Q.8 · Answer (B) Soup
