Explanations

General English

Q.1 · Answer (D) that was to making the young

'Was to' is followed by the base form of the verb: 'the education that was to make the young boy a citizen and a soldier'.

Q.2 · Answer (B) Shaky

'Steady' means firm and not shaking, so its opposite is 'shaky'. 'Constant' is close in meaning to 'steady'.

Q.3 · Answer (C) to change

'Admonish' takes an object and a to-infinitive: to admonish people 'to change' their ways is to urge them firmly to do so.

Q.4 · Answer (A) in writing

Something 'in black and white' is set down in writing.

Q.5 · Answer (B) these

'These' is the plural demonstrative that goes before a plural noun: 'these toys'. 'This' is singular, and 'them' and 'they' are pronouns that cannot stand before a noun.

Q.6 · Answer (A) Suddenly

The correct spelling is 'suddenly': 'sudden', with a double 'd', plus '-ly'.

Q.7 · Answer (C) Dissiminate

'Dissiminate' is misspelt: the word is 'disseminate', meaning to spread widely.

Q.8 · Answer (B) Hutch

A hutch is a cage or box for small animals such as rabbits. A shed and a hut are small buildings, and a cave is a hollow in rock.

Q.9 · Answer (B) has a positive effect

The noun 'effect' needs the adjective 'positive', not the adverb 'positively', and the singular subject takes 'has': 'has a positive effect'. 'Affect' is usually a verb.

Q.10 · Answer (B) awful

'But' sets up a contrast with treating me well in the morning, so the blank needs a word for bad behaviour: 'awful'.

Q.11 · Answer (A) Depressing

'Gloomy' means dark or sad: 'depressing'. 'Bright' is nearly its opposite, and 'intrepid' means fearless.

Q.12 · Answer (A) Many an old story was retold

'Many a' (or 'many an') takes a singular noun and a singular verb: 'Many an old story was retold'.

Q.13 · Answer (B) Too old to do something

'Long in the tooth' means old, too old for something.

Q.14 · Answer (A) Agnostic

An agnostic holds that God's existence cannot be known. A pantheist identifies God with the universe, and 'haggard' means looking exhausted.

Q.15 · Answer (D) are often the result

The plural subject 'scientific discoveries' takes 'are', and 'result' needs the article: 'are often the result of hard work'.

Q.16 · Answer (D) accommodating

To be 'accommodating to' people is to be willing to meet their needs, here their food sensitivities and diets.

Q.17 · Answer (C) Frank has being making
The present perfect continuous is 'has been' with the '-ing' form: 'Frank has been making the rounds'.

Q.18 · Answer (A) with his own life experience
Experience comes 'from' one's life, so 'with' is the wrong preposition: '... probably comes from his own life experience'. The options split the sentence after 'comes', so the error lies in 'with his own life experience'.

Q.19 · Answer (B) severely
'Critically' injured means seriously injured: 'severely'. 'Trivially' is nearly the opposite.

Q.20 · Answer (A) vain
To go 'in vain' is to go without success. A 'vein' carries blood, and a 'vane' is a blade turned by the wind, as on a weathervane.

Q.21 · Answer (C) has done
The 47 years of history run up to the present, so the present perfect fits: 'ISRO has done breakthrough work'.

Q.22 · Answer (C) launched
Vehicles are 'launched' into space; 'launched' shares the 'has' of the first clause: ISRO 'has ... even launched many vehicles'.

Q.23 · Answer (B) Over
'Over the last 47 years' means during that whole period, which suits the present perfect 'has improvised and developed'.

Q.24 · Answer (D) several
'Several' goes with a plural countable noun: 'several indigenously created vehicles'. 'Much' is for uncountable nouns, 'lots' needs 'of', and 'very' cannot qualify a noun.

Q.25 · Answer (B) that
'That' introduces a relative clause about things, here the vehicles: 'vehicles ... that form a part of the Indian space journey'. 'Who' is for people.

General Intelligence and Reasoning

Q.3 · Answer (C) J and K
C is not at a corner, so she sits in the middle of one side and L, opposite her, in the middle of the other. L's neighbours are the two corners on her side, A and B, so the two corners beside C are taken by the remaining girls, J and K.

Q.4 · Answer (C) 45
Each code is the sum of the letters' places in the alphabet: TOIR = 20 + 15 + 9 + 18 = 62 and HATE = 8 + 1 + 20 + 5 = 34. So GAYL = 7 + 1 + 25 + 12 = 45.

Q.6 · Answer (C) Only conclusion I follows.
All books are pens and all pens are pencils, so all books are pencils (I). The pencils need not all be books, so II does not follow.

Q.7 · Answer (D) Neither conclusion I nor II follow.
The teeth that are noses need not be the noses that are hands, nor those hands the ones that are feet, so I does not follow. Only some hands are known to be noses, so II does not follow either.

Q.8 · Answer (C) 1528
Each term is 35 less than the one before: 1563 − 35 = 1528.

Q.9 · Answer (A) ZSO
The first letters go back 3 (L, I, F, C, Z, wrapping round after A), the second back 2 (A, Y, W, U, S) and the third back 1 (S, R, Q, P, O): ZSO.

Q.10 · Answer (D) Mn

'is' is the only word in all three sentences and 'Uv' the only code in all three; 'my' (in the first two) is 'Zs' and 'This' (in the first and third) is 'Bo'. That leaves 'Mn' for 'brother'. (The sheet prints 'Uv' and 'Zs' run together in the first code.)

Q.11 · Answer (A) (21, 315, 6)

The middle number is the first times the difference of the first and third: 15 × (15 – 6) = 135 and 12 × (12 – 5) = 84. Likewise 21 × (21 – 6) = 315.

Q.12 · Answer (D) OYO

The first and last letters move 10 places forward, wrapping round after Z, and the middle letter stays: A → K and T → D; E → O and R → B. So EYE → OYO.

Q.13 · Answer (A) 9 6

'gel' (in the first two) is 8 and 'mould' (in the first and third) is 4, so 'soft' is 6. 'is' and 'hard' (in the last two) are 'kc' and 3, so 'grey' is 9: 'grey soft' is '9 6'.

Q.14 · Answer (A) window
