Explanations

General English

Q.1 · Answer (C) warned

To 'warn' someone not to do something is to caution them against it, which fits 'not to intrude'. 'Claimed', 'gambled' and 'satisfied' do not take this pattern or sense.

Q.2 · Answer (C) rising

'Rising' (going up) describes the noun 'price': 'the rising price of onion'. 'Raising' would need an object, and 'raise' and 'rise' cannot describe 'price' here.

Q.3 · Answer (B) No error

The sentence is correct: 'despite' takes the noun phrase 'the doctor's stern warning', and 'continued taking sugar in his tea' is idiomatic.

Q.4 · Answer (D) amazed

The verb must be in the past tense to match 'thrilled', joined to it by 'and': 'amazed and thrilled the audience'.

Q.5 · Answer (C) Arrival

'Advent' means the coming or arrival of something; 'departure' is its opposite.

Q.6 · Answer (B) consistent

A 'consistent' basic routine, one followed steadily, takes you a long way. 'Erratic' is the opposite, and 'strange' and 'impartial' do not fit the sense.

Q.7 · Answer (A) No improvement required

The plural 'symptoms' takes 'are', and 'troubling' (worrying) describes them correctly, so no change is needed. 'Are troubled' would mean the symptoms themselves felt troubled.

Q.8 · Answer (B) who spoken Portuguese

'Spoken' is a past participle and cannot be the verb by itself: with 'anyone' it should be 'who speaks Portuguese'.

Q.9 · Answer (D) No sooner had he got out of her sight than

'No sooner' is followed by 'than', not 'that': 'No sooner had he got out of her sight than she proceeded...'

Q.10 · Answer (B) under all circumstances

To stand by someone 'through thick and thin' is to support them in good times and bad, under all circumstances.

Q.11 · Answer (D) buying a new

'New' begins with a consonant sound, so it takes 'a', not 'an': 'buying a new vehicle'.

Q.12 · Answer (A) vacant

Mice had made their home in the garret because nobody had used it for a long time: it had been 'vacant', that is empty.

Q.13 · Answer (A) No error

The sentence is correct: 'deal with' takes the object 'some family issues', and the present continuous suits 'right now'.

Q.14 · Answer (A) No improvement required

'Affects' is the verb meaning has an influence on, and it agrees with the singular 'a subject', so no change is needed. 'Effects' is mainly a noun.

Q.15 · Answer (D) Ingenuos

'Ingenuos' is misspelt: the word is 'ingenuous', meaning innocent and trusting.

Q.16 · Answer (D) Dim

'Luminous' means giving off light, bright; its opposite is 'dim'.

Q.17 · Answer (B) Apparently
'Apparently' is spelt correctly. The others should be 'conducive', 'bottleneck' and 'endogenous'.

Q.18 · Answer (B) Happy
'Merry' means cheerful and lively: 'happy'. 'Morose' and 'somber' mean gloomy, nearly its opposite.

Q.19 · Answer (D) slightly open
'Open' is an adjective describing her mouth, and an adjective is modified by an adverb: 'with her mouth slightly open'.

Q.20 · Answer (D) The biggest and best part of a whole
'The lion's share' is the largest or best part of something.

Q.21 · Answer (D) at
A place on a road is 'at' a point: 'at a point midway along the arrow-straight road'.

Q.22 · Answer (C) splendidly
The soldiers are dressed grandly for the ceremony: 'splendidly uniformed'. 'Elatedly' and 'gladly' describe feelings, not dress, and 'badly' does not suit a show parade.

Q.23 · Answer (C) fierce
'Fierce glares' go with the barked commands and high kicks that 'all signal violent intent'.

Q.24 · Answer (A) unison
'In unison' means together, at the same moment: the rivals lower their flags together, 'lovingly', after the show of hostility.

Q.25 · Answer (B) curtly
The guards shake hands 'curtly', that is briefly and without warmth, keeping up the stern show before the gates close.

General Intelligence and Reasoning

Q.1 · Answer (D) 70
After replacing the letters: 44 + 36 – 60 ÷ 30 × 5 = 44 + 36 – 2 × 5 = 80 – 10 = 70.

Q.2 · Answer (D) 1516
The differences are 2, 8, 32, 128 and 512, each 4 times the last: 1004 + 512 = 1516.

Q.4 · Answer (D) 3256
Each number is paired with the sum of its digits: 4 + 2 + 8 + 4 = 18 and 1 + 4 + 8 + 2 = 15. Of the options only 3256 has a digit sum of 16 (3 + 2 + 5 + 6).

Q.5 · Answer (B) OS
Both letters move 5 places forward each time, wrapping round after Z: U, Z, E, J, O and Y, D, I, N, S. The next cluster is OS.

Q.7 · Answer (C) 1875
Each term is 5 times the last: 375 × 5 = 1875.

Q.8 · Answer (A) pg kp
'Numbers' is in the first two sentences and so is '#'; 'are' is in the first and third, as is '8'. That leaves 'pg' for 'calculator'. 'Odd' is in the second and third, as is 'kp', so 'calculator odd' is 'pg kp'.

Q.9 · Answer (D) MRA
The last letter moves to the front: DOW → WDO. So RAM → MRA.

Q.10 · Answer (C) S
U is 2nd, so T is 3rd and P 4th. C is last (7th), and S, with only four boys above it, is 5th. K is above S, so K is 1st and M 6th. Third from the last is the 5th rank: S.

Q.11 · Answer (A) Eyes
